K-CR series

FULL T.D.R. HIGH SECURITY SAFES

The K-CR series is ideal where maximum security is necessary. Situations include:

Jewellers, high cash turnover outlets such as restaurants, pubs, nightclubs, supermarkets & cinemas, to name a few.

The recommended insurance rating for cash and valuables on the K-CR series of safes is \$100,000. (This rating is in an unsupported situation ie. no alarm).

This safe is designed to give fire resistance protection for one hour.

The design of these safes are made to give a high level of resistance to professional attack by means such as:

- drilling & grinders
- oxy-acetylene
- explosives
- pneumatic & hydraulic tools

Features of this quality safe include:

- Digital locking standard. Fitted with high quality LAGARD 3600 keypad
- Solid 32mm 4-way boltwork with 12 locking points on the door
- Solid thick steel plate covering whole door. Steel mesh in all 6 sides of the safe with high density concrete & refractory materials making up the slab. Body & door thickness both 90mm.
- Hardened plate protecting all vital locking points
- Secondary relocker device
- Large heavy grade block hinges
- Two recessed bolt holes in base for secure anchoring to any surface
